

# RENOVATION OF MAHAKAVI KALIDAS KALAMANDIR PROJECT

(Smart City Funded INR 9.50 Cr)

## PROJECT SUMMARY

This project involved repair and replacement of damaged structural elements such as the roof, walls, ceiling, seating arrangement, sound system, light systems and HVAC.

The project also involved upgrading of fire safety systems including smoke detectors, sprinklers and alarms.

The sound system consisted of advanced acoustic treatments to improve the HD sound quality. The stage and audience area lighting systems are implemented as per the modern standards.

- ▶ Improved seating, acoustics and visibility has enhanced the overall experience for the audience.
- ▶ Upgraded fire safety systems, emergency exits and lighting ensure a safer environment for the audience.
- ▶ Upgraded lighting, sound and stage equipment brings in the modern standards inside the theatre.
- ▶ Restoring architectural and historical elements preserves the cultural heritage of the theatre which is an add - on provision of revenue generation for Nashik Municipal Corporation.

## IMPACT
